

Cognitive is a leading manufacturer of thermal printers, labels, and tag media. Cognitive offers one of the broadest product lines of compact desktop and portable printers ranging from light to continuous duty cycle models. Cognitive bar code printers include Windows drivers and can print all industry standard bar codes, including two dimensional codes like MaxiCode and PDF 417. Cognitive also provides high quality thermal printing supplies, including custom color media, compatible with other printer manufacturers.

COGNITIVE SOLUTIONS INTRODUCES ITS HF 13.56 MHz RFID PRINTERS

Cognitive Solutions is proud to announce its entry into the RFID Market with its flagship product. The Advantage LX is currently available in the high-frequency level – the HF 13.56 MHz – and will soon be available in ultra frequency UHF 860-915 MHz. Both products are built on the industrial strength Advantage chassis with the RFID technology integrated into the product without sacrificing size, performance, reliability, and ergonomics. Additional benefits and applications include:

- Currently available in 2" models (smallest footprint on the market)
- Compatible with a variety of RFID Tags
- Ethernet/Serial/Parallel Communication Ports
- Prints both Direct Thermal and Thermal Transfer Labels, Tags and wristbands
- Complete RFID and Barcoding Solution in One Printer
- Metal shielded mechanism to prevent RFID collision problems
- Includes large roll guide for use with wristbands and other large diameter rolls.
- Applications include Usage and Asset Tracking; Remarketing; Patient Identification (Healthcare); Anti-Counterfeiting (Pharmacy)

LX SERIES Advantage and Del Sol

Cognitive's high performance printers, the Del Sol LX and Advantage LX, are aggressively impacting the desktop printer market. These durable LX printers provide a robust platform, driving productivity to the next level. Increased memory, as well as a full suite of stored objects, gives you greater flexibility to meet your demanding needs.

- Print Speeds: 3 ips
- Faster throughput: Up to 60% faster with Windows Applications
- Higher Flash Memory: 4 MB standard for larger stored objects/additional storage
- Increased DRAM(Dynamic Random Access Memory): 2MB for moving larger files
- More Standard Stored Objects: All our 2-D Barcodes will be included.
- More International Fonts: All our available international fonts will be factory loaded as standard and readily available for use.
- New Certified Windows Drivers: For trouble-free, up-to-date Windows Operating Systems
